## Profile

Motivated Frontend Developer with a strong foundation in HTML, CSS, JavaScript, and responsive web design. Experienced in building real-world projects, implementing animations, interactive UI components, and clean layouts. Currently pursuing a BS in Computer Science and continuously improving practical skills.

## Technical Skills

- HTML5, CSS3, JavaScript (ES6+)
- Responsive Design, Flexbox, CSS Grid
- DOM Manipulation, Events, Animations (AOS)
- Git & GitHub, Version Control
- UI/UX Basics, Clean Code Practices

## Projects

### Personal Portfolio Website

<https://aamir569696.github.io/Portfolio-website/>

A responsive personal portfolio featuring sidebar navigation, scroll effects, preloader, animations, and modern UI design.

### Typing Speed Test Web App

<https://aamir569696.github.io/Typing-speed/>

A JavaScript-based typing speed application that calculates WPM and accuracy with real-time user interaction.

## Education

Bachelor of Science in Computer Science (BSCS)

Gomal University, Pakistan

Currently Enrolled

I am eager to apply my frontend development skills in internships or entry-level roles, where I can contribute to real projects and continue growing as a developer.
